

For Immediate Release

Digital Watchdog® Launches New Blackjack® Tower™ Server with 360Mbps Throughput

The versatile NDA/TAA compliant server comes preloaded with DW Spectrum® IPVMS and includes four recording licenses.

DW® Blackjack Tower mid-size server.

Cerritos, CA (January 25, 2021) – [Digital Watchdog® \(DW\)](#), the industry leader in digital recorders, surveillance cameras and related management software, announces the release of our new Blackjack Tower server. This new mid-size desktop server model is ideal for medium to large scale applications, as part of a larger mesh of servers in multiple locations or as a single location solution.

The Blackjack Tower mid-size server is a reliable and high-performance solution for viewing, monitoring and recording multiple IP cameras of any resolution at up to 360Mbps throughput. The server is National Defense Authorization Act/Trade Agreement Act

Digital Watchdog Press Release

(NDAA/TAA) compliant and includes Windows 10® OS, an Intel® i5 processor, dual network cards and local true HD, DVI and VGA outputs. The server comes preloaded with DW Spectrum IPVMS and four (4) recording licenses, accommodates up to 18TB internal storage, is ONVIF conformant and comes with a 5 year limited warranty.

“This new Blackjack model bridges the gap between our popular Cube™ form factor and our rack-mountable models,” said Mark Espenschied, Director of Marketing, Digital Watchdog. “The server's robust features make it a perfect choice for installations with a larger camera count.”

Cameras Features*:

- Supports all ONVIF conformant IP cameras
- Up to 18TB internal storage
- Record and manage single- and multi-sensor IP cameras of any resolution up to 360Mbps throughput
- 1 x true HD, 1 x DVI, 1 x VGA, 1 display output at a time
